Portfolio

Summary

Computer Science student specializing in Full Stack Web Development with hands-on experience building MERN applications and real-time systems. Skilled in JavaScript, React, Node.js, and Firebase, with additional experience in Python and machine learning. Seeking a Software Engineering Internship to apply strong development and problem-solving skills..

Education

Sukkur IBA University

Bachelor of Science in Computer Science – CGPA: 3.00 / 4.00

Sukkur, Sindh

Aug. 2023 – 2027

- Relevant Coursework: Data Structures & Algorithms, Databases, Data Science, Mobile Application Development, Enterprise Application Development, Operating Systems, OOP, Business Intelligence

Experience

IT Assistant

Jan. 2021 – Nov. 2022

SHAEDO Organization

Khairpur, Sindh

- Provided technical support by troubleshooting hardware, software, and network issues
- Installed, configured, and maintained computer systems, printers, and peripheral devices
- Managed organizational data using Microsoft Excel including data entry, reporting, and analysis
- Assisted in network setup and maintenance including LAN connectivity and internet troubleshooting
- Collaborated with team members to improve IT processes and reduce system downtime

Projects

Trendy Good – MERN E-Commerce Platform | MongoDB, Express.js, React.js, Node.js, JWT

2026

- Built a full stack e-commerce platform with secure user authentication and product management
- Developed RESTful APIs for products, users, carts, and categories using Express.js and MongoDB
- Designed a responsive UI implementing product listing, shopping cart, and checkout experience

X-Ray Image Analytics Platform | Python, Machine Learning, Matplotlib, Plotly

2026

- Developed a platform to analyze X-ray images using ML models for image classification and segmentation
- Implemented data preprocessing pipelines and built visualization modules for graphical reports
- Designed a scalable architecture for potential web integration and real-time analytics

Real-Time Quiz Web Application | JavaScript, Firebase, HTML5, CSS3

2025

- Developed a real-time quiz system with multiple categories, timer-based questions, and instant feedback
- Built user authentication, admin panel, and analytics dashboard using Firebase
- Designed a fully responsive and user-friendly interface

E-Learning Website | HTML5, CSS3, Bootstrap 5, JavaScript

2025

- Developed a responsive e-learning platform with course catalog, login, and authentication features
- Created dynamic navigation and interactive UI components for improved user experience
- Ensured cross-device compatibility and optimized performance for accessibility

Achievements

Event Executive – Project EXPO 24 & SCI-TECH

2024

IBA Sukkur Computer Science Society

Team Lead – OOP & Programming Fundamentals

Fall-23 & Spring-24

Sukkur IBA University

Technical Skills

Languages: JavaScript, Python, C++, SQL, HTML5, CSS3

Technologies: React.js, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, Bootstrap, Firebase, REST APIs, JWT

Data & ML: Pandas, NumPy, Matplotlib, Jupyter Notebook, Machine Learning, Data Visualization

Tools: Git, GitHub, GitHub Actions, VS Code, Microsoft Excel

Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering
